I am Aditya Verma and I did BTech from National Institute of Technology Kurukshetra in Civil Engineering branch. I have worked on a project in 7th semester which is titled as 'Assessment of water quality of Brahma Sarovar in Kurukshetra City'. I also took a course in AutoCAD and Revit 3D in 2018. I have a profound interest in Mathematics since 12th grade along with special interest in Statistics and Probability. I am eager to learn new things and that's why I believe I will fit as a student of your college in Data Science.
